🎓 EDUCATION

PUCIT, University of The Punjab, *Bachelor in Software Engineering*   09/2019 – present

Intermediate in Computer Science, *Punjab Group of colleges*   08/2017 – 03/2019

💼 PROFESSIONAL EXPERIENCE

Mern Stack developer, *Devfum*   09/2021 – 01/2022
   Worked on web projects for clients at my startup with a team of developers and designers.

📂 PROJECTS

Top Dish, *NextJs, NodeJs, ExpressJs, MongoDb* 🔗   01/2022 – 02/2022
- Main goal of this website is to give people a **platform** where they can find best restaurant for a **specific** dish in whole city.
- Google map allows users to give ratings about the whole restaurant not the specific dish of a restaurant. I tried to solve this problem using **upvote** system.

Car Rental App, *ReactJs, NodeJs, ExpressJs, MongoDb* 🔗   12/2021 – 01/2022
- It is a Rent a car website where Customers can book the cars by paying through **Stripe** & Admin can see the bookings and can manage the cars.
- If a car is **booked** for a time span no other customer can book the same car on same time span.
- It includes a chatbot for helping customers in bookings and send complaint or feedback to Admin 's email feature.

BookMyDoc, *ReactJs, NodeJs, ExpressJs, MongoDb* 🔗   2022 – 2022
- Implemented all these features in 24 hours Web Development hackathon **SOFTEC'22**
- Patients can book appointments with doctors based on their **Clinics** time.
- Doctors can schedule the appointments.
- Patients can **search** doctors based on their specialities and can give **ratings** and **feedback** to doctors.

E Tech Bazaar, *Pugs, NodeJs, ExpressJs, MongoDb* 🔗   09/2021 – 11/2021
- It is an **e-commerce** website project. Admin can manage the products and users can place orders.

🧠 SKILLS

| JavaScript | React | NextJs | MySql | MongoDb | NodeJs | ExpressJs | Rest APIs |

| GraphQl | C++ | Java | Problem Solving | Data Structures & Algorithms | Git & Github |

🏅 ACHIEVEMENTS

Website Development Competition Winner, *Nascon '22*

2nd Runner up in Website Development, *Softec'22*

Solved more than 100 DSA problems, *Leetcode, Code Studio, HackerRank*

Five star Coder, *HackerRank*
